Chobe National Park |

With the meandering Chobe river on its border, the Chobe National Park has some of the finest gameviewing in Africa and one of the biggest concentrations of elephants in Africa. It is also notable for huge herds of buffalo and zebras, lechwe, Chobe bushbuck and puku antelope can also be seen. Where there are buffalo, lions are never far away and there is a good chance of seeing large prides who laze around in the shade all day and only yawn themselves awake at dusk. Hyena and leopard also hunt at night while cheetahs are diurnal predators. Chobe is rich in bird life with the Pel's Fishing owl a favourite for bird watchers and the peculiar strangely beaked African skimmer another speciality. African fish eagles are common and their distinctive cry is as evocative of the African wilderness as the roar of the lion.
